Webinar Timeframe 10am – 12pm - \$50.00 per person

County, municipal and school budget costs determine the amount of property tax to be paid. A town's general tax rate is calculated by dividing the total dollar amount it needs to raise to meet local budget expenses by the total assessed value of all its taxable property. An individual's property taxes are then calculated by multiplying that general tax rate by the assessed value of his particular property. Because of New Jersey's strong "home rule" concept of government, the State does not participate in the making of local budgets, nor does it receive any of the property taxes collected.

Tax Rates Equals

The Budget Process
 Creation of the Tax Levy
 Breakdown of general tax rate
 Special District rate
 State Certification
 County Certification
