Contract Management involves those activities performed by government officials after a contract has been awarded to determine how well the government and the contractor performed to meet the requirements of the contract. It encompasses all dealings between the government and the contractor from the time the contract is awarded until the work has been completed and accepted or the contract terminated, payment has been made, and disputes have been resolved. As such, contract management constitutes that primary part of the procurement process that assures the government gets what it paid for.

This webinar will look at the stages of contract management in government and will provide tools, resources, and best practices for contract management for local officials.

Presenter: Susan Jacobucci, Esquire, Former Director DLGS
