10:00am–12:00 pm   Webinar Timetable - $50 per person

This two-hour webinar offers a concise and practical overview of the most pressing cybersecurity risks facing organizations today. Participants will gain essential knowledge to help protect sensitive information, maintain operational stability, and support informed decision-making. Key topics include:

- Common threats (phishing, ransomware, social engineering)
- Typology of malware
- Human error and the role of employee awareness
- Password hygiene and secure access practices
- Safe handling of data and email communication
- Recognizing and responding to cyber incidents
- Risk, compliance, and reputational impact

The session emphasizes clear, actionable guidance without extensive technical terminology. Designed specifically for local government and school administrators, this course does NOT require any specialized IT background.

Presenter: Professor Andrey Kretinin, Ph.D, William Paterson University
